***NOTES:**

The Learning Center at the Els has shown improvement over the previous Annual Financial Review from FY2019.

Maintains positive financial trends – The financial indicators appear to show overall positive trends, but it is important to note that the school received financial support in the amount of \$505,000 in the form of a PPP loan. Therefore, the positive trends may in part be due to financing activities rather than operating activities.

Maintain adequate fund balance – As with the note regarding positive financial trends, the General Fund showed an increase from the previous fiscal year, FY19. However, the school received financial support in the amount of \$505,000 in the form of a PPP loan. Therefore, the increase in General Fund balance may in part be due to financing activities rather than operating activities.

COVID-19 - In March 2020, the World Health Organization declared the outbreak of a coronavirus (COVID 19) a pandemic. As a result, the local and global financial markets are experiencing significant declines and creating economic uncertainties. At this time, it is unknown precisely how this negative outlook will impact the School’s financial statements in the future.
