

This Year's Outstanding Business Partnership Award Winners

The School District salutes 27 outstanding business partners for their commitment and dedication to our schools and students. More than 100 businesses, organizations and community leaders were nominated by schools and departments. "I am inspired everyday by the tremendous support our business and community partners provide for public education," said Superintendent Art Johnson. "I invite anyone who has time and resources to share to become a business partner with us. To those partners who have and continue to ardently support our students and schools, thank you for making a positive difference in the lives of Palm Beach County children."
