ACTION:
For Information Only

TO: All Principals and Department Heads
FROM: Joseph M. Moore 
Chief Operating Officer
SUBJECT: 09C-28LK Recycling of Mercury-Containing Devices and Lamps

The contract for Recycling of Mercury-Containing Devices and Lamps has been renewed with AERC Recycling Solutions, Inc. The contract period is November 20, 2009 through November 19, 2010.

This Bulletin contains instructions, and contact names and phone numbers for AERC Recycling Solutions, Inc. (AERC). Whenever a school or a location has a minimum quantity of 10 boxes of spent fluorescent bulbs for disposal, contact Gerry Lanza or Toni Millard at (321) 952-1516 at AERC.

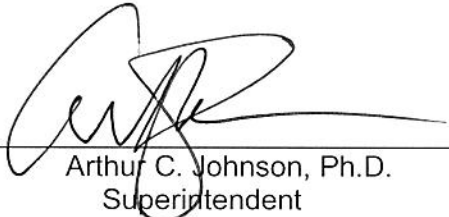

Fluorescent light bulbs must be stored in sealed boxes, in a dry place and labeled with a Universal Waste Label. AERC will provide boxes and labels if requested. Each label must be filled in with the name of the school and the "accumulation start date", which is the date the first bulb is placed into the box. If you need more labels or you cannot store the light bulbs at your location please contact the Environmental Control Office (ECO) at 561-684-5142.

It is against the law to throw fluorescent light bulbs or HID light bulbs into the trash. Incandescent bulbs are not recyclable, do not contain mercury and therefore may be disposed of in the regular trash. If you are unsure about what types of bulbs you have please contact the ECO.

If you have any questions that cannot be addressed by the vendor, please contact Jan Butts, Purchasing Agent at (561)434-8306 or PX 48306.
