

ONE LINE ORDER VENDORS

Last updated 08/09/10 – this list may change often

Due to the way these companies invoice - Special Request requisitions to these companies must be created as a one line order. The requisition quantity is "1" and the UOM is "LO" for lot and the price is the total amount of the order including any applicable shipping charges.

Attach your list of items to the requisition as a .PDF file. If the company charges shipping you must add that amount to the total order amount and not as a separate requisition line; this applies to one line orders only.
