Domain: _____

Enrollment: _____

Disaggregate by Percentages:

Caucasian/Non-Hispanic: _____

African American: _____

Hispanic: _____

Asian: _____

Other: _____

Free-Reduced lunch:

English Language Learners: _____

Step One: Mission

School's Mission (Connect your goal to your school's mission)

Step Two: Elements

Current Critical Data Element

What indicator of school success are you trying to positively impact? (i.e. grades , test scores, attendance, promotion rates, graduation rate ,etc.)

Step Three: Analyze

Analyze the data to see what it reveals, to identify the problem areas, to establish your baseline, and to set your goal. It may be necessary to disaggregate the data, e.g. race, ethnicity, gender, special programs, and/or grade level.

Baseline: What is the current data?	Goal: Where do you want the data to be after program implementation?
--------------------------------------------	-----------------------------------------------------------------------------

Step Four: Stakeholders-Unite

Develop an Action Plan	
Stakeholders	Strategies <i>Connect your strategies to your school's counseling and guidance program, the Student Development Plan.</i>
	Beginning date: Ending date:
