EXECUTIVE SUMMARY

October 7, 2022

TO: School Board Members

THROUGH: Michael J. Burke, Superintendent 

FROM: John-Anthony Boggess, Chief of Staff 
Adam Miller, Ph.D., Assistant Superintendent, Performance Accountability 

SUBJECT: FY22 ADVANCED PLACEMENT (AP) AND ADVANCED INTERNATIONAL CERTIFICATE OF EDUCATION (AICE) RESULTS

This memorandum provides a high-level summary of the FY22 Advanced Placement (AP) and Cambridge Advanced Certificate of Education (AICE) examination participation and performance results. These programs provide opportunities for students to experience college-level course material and examinations while still in high school. Colleges and universities may grant students who are successful on the exams, college credit, and/or use the data to place students who have demonstrated adequate college-level subject mastery in appropriate-level courses. AP and AICE test performance and participation are important indicators of college readiness and equity among schools and groups of students.

Tables 1 and 2 summarize the participation rates for the AP and AICE exams, respectively. Figures 1 and 2 provide a graphical display of the participation rates. The AP and AICE participation rates showed different trends. Overall, AP decreased to 17% overall in FY22 (-1 percentage point) from FY21 while AICE participation increased by 2 percentage points to 32% in the same period. Single-year participation declines were noted for Asian, Black and White students in AP. However, all student groups except Asian students showed increased participation in AICE. Figures 3 and 4 illustrate the gaps in participation for AP and AICE, respectively. Historically, participation rates have differed between student groups in a consistent pattern. Asian and White students participated at higher rates compared to the District overall (in FY22 AP: +24 and +9 percentage points, respectively; AICE: +14 and +8 percentage points, respectively). Black (-9 points for both AP and AICE), English Language Learner (ELL; -7 and -8 points for AP and AICE, respectively), and Exceptional Student Education (ESE; -14 and -22 points for AP and AICE, respectively) students participated at lower rates compared to the District overall.

Tables 3 and 4 summarize exam performance while Figures 5 and 6 provide graphic displays of the same. Overall, AP passing rates (scores of 3 or higher) increased by 8 percentage points from 49% to 57% in FY22 while AICE passing rates decreased by 7 percentage points from 76% to 69% over the same period. The single-year AP performance increases were apparent for each of the student groups; in contrast, performance declines were resisted for all groups on the AICE exams. Figures 7 and 8 display the performance gaps by student group. Between group differences in performance is similar across years. Asian and White students registered higher passing rates on both AP and AICE exams relative to the District Average (in FY22 AP: +8 and +4 percentage points, respectively; AICE: +9 and +8 percentage points, respectively). Black, Hispanic, ELL, and ESE students passed at lower rates (in FY22 AP: -20, -3, -9 and -13 percentage points, respectively; AICE: -18, -3, -12, and -21 points, respectively).

Table 1. Number of AP Test Takers and Participation Rates for District and by Individual Race/Ethnicity

	Number of Students Taking AP Tests					AP Test Participation Rates					1-Year Change	5-Year Change
	FY18	FY19	FY20	FY21	FY22	FY18	FY19	FY20	FY21	FY22		
District	13,189	13,237	12,191	11,961	11,758	20%	20%	18%	18%	17%	-1%	-3%

ELL	5,414	5,524	5,317	5,954	6,973	59%	61%	73%	64%	57%	-7%	-1%
ESE	992	971	990	1,166	1,581	63%	48%	68%	56%	48%	-8%	-15%

Notes: (a) In the District, students who are enrolled in AICE courses are required to take the examination for that course.

(b) The numbers and percentages in the above table correspond to the recent result data.

(c) Due to COVID 19 in FY20, AP tests were given virtually and AICE scores were based on teacher rating only. This likely influenced the increase in scores.

Figure 5: AP Passing Rates

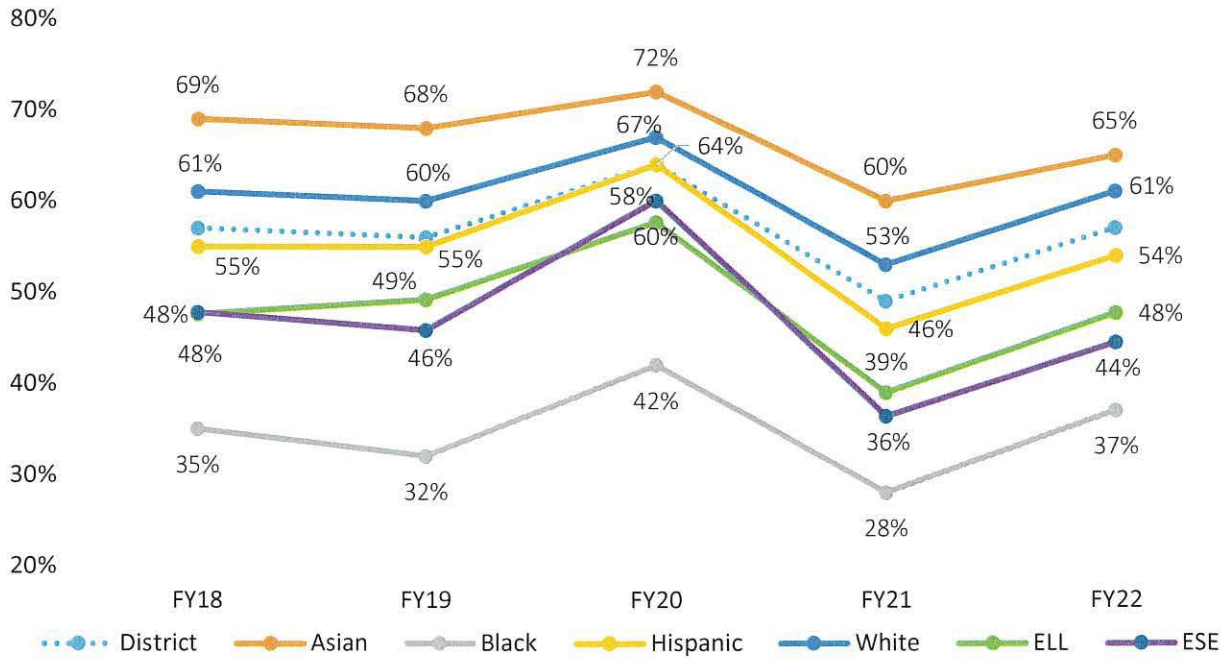

Figure 6: AICE Passing Rates

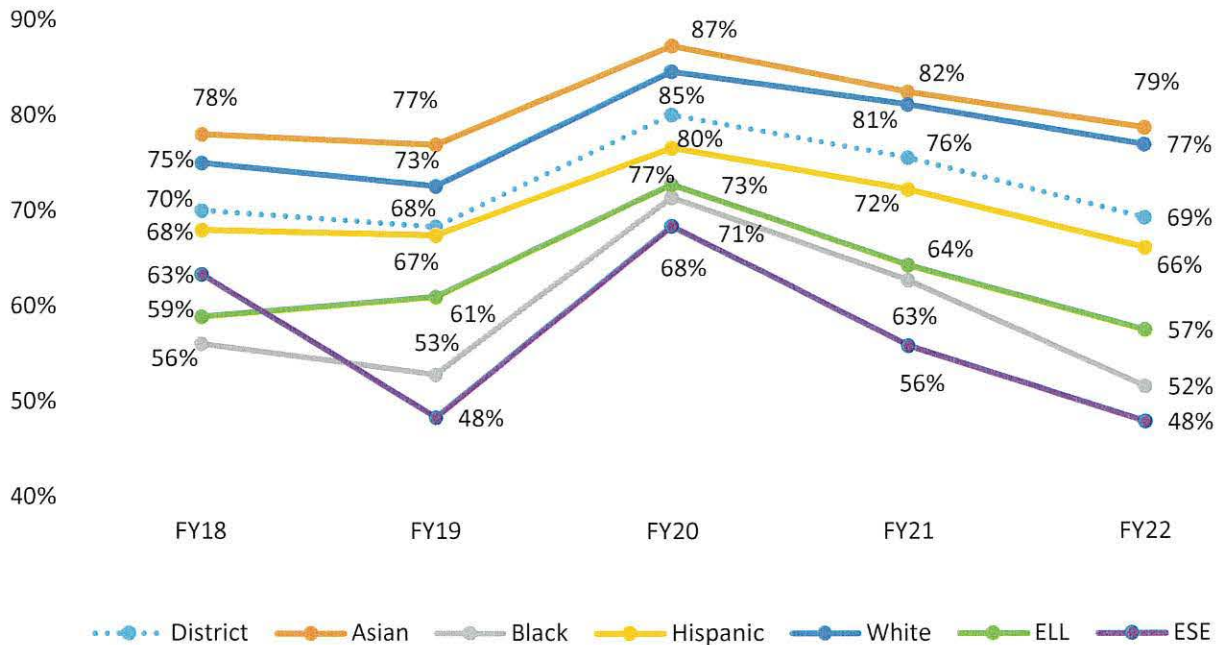

Figure 7: AP Passing Rate Gaps

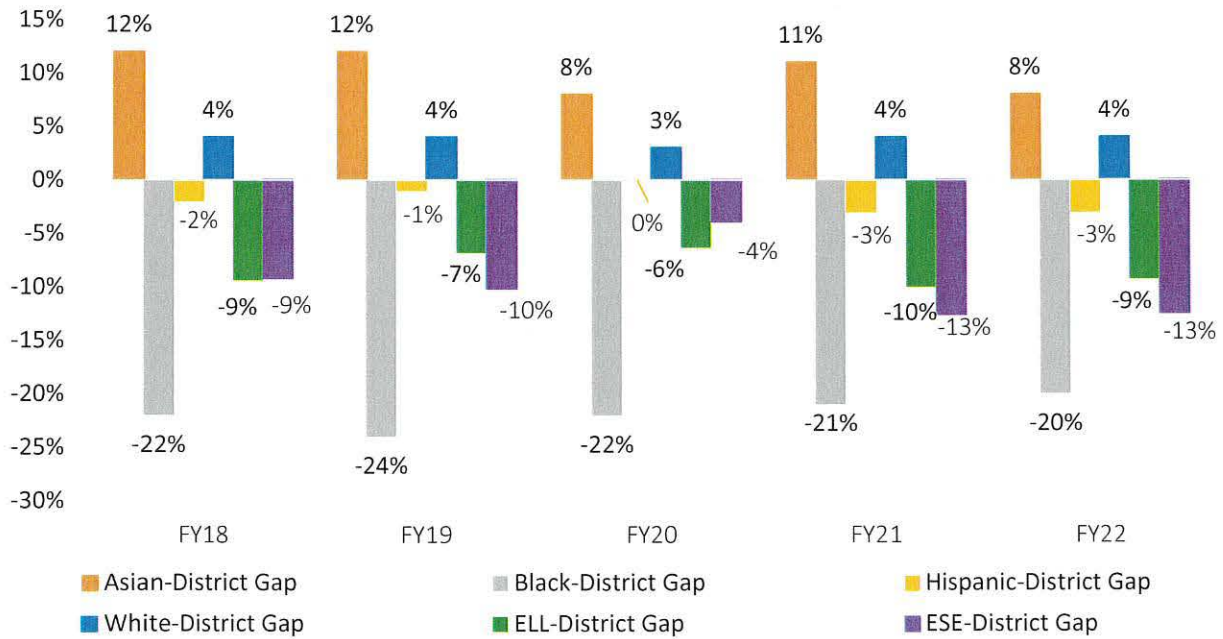

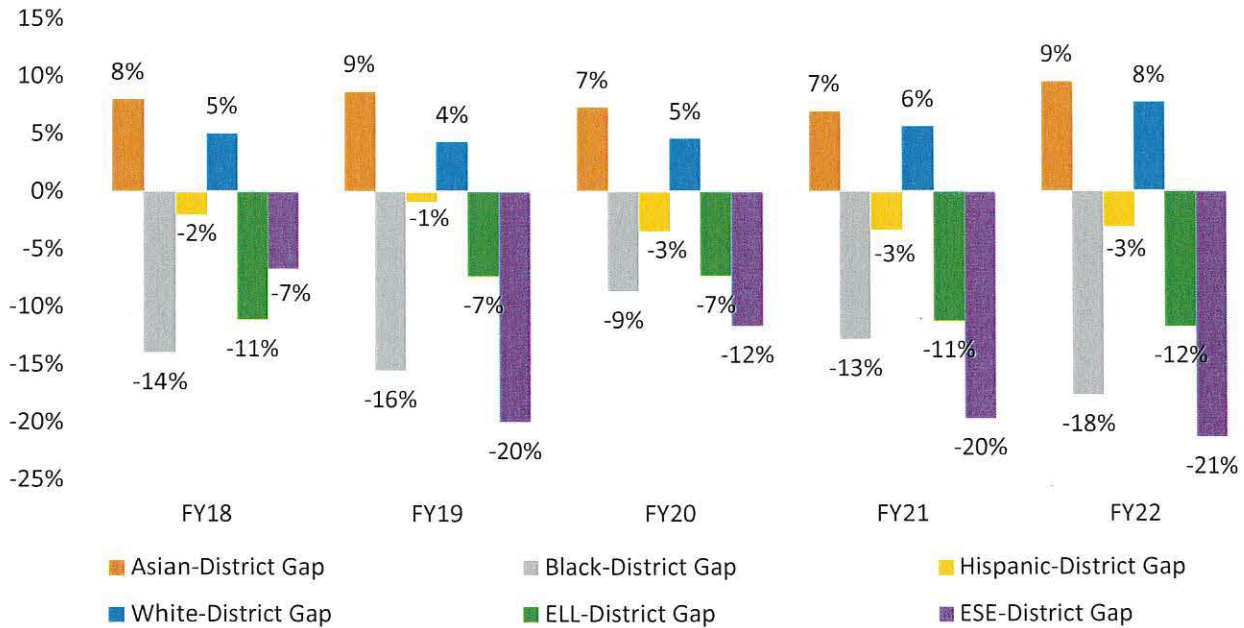

Figure 8: AICE Passing Rate Gaps

Attachment A provides a school-by-school summary of AP participation, passing rates, and gaps by student subgroup for the FY21 and FY22 school years, Attachment B provides the same information for AICE. In addition, information on student performance by school for each test subject is available on the Department of Research & Evaluation website at: <http://lsdpbc.net/7jypy>. These results will be shared with appropriate staff members to provide direction for improvements in curriculum and instruction. Also, schools have received information about their AP and AICE exam test takers, which can be used with the information included here for the school improvement planning process.

Next Steps and Guiding Questions:

School staff should review the AP and AICE results to determine strengths to build upon and opportunities to grow quality programs and expand access for students. While reviewing these data, schools should be mindful of the following:

1. How did your school perform on the tests compared to the District? Similar schools?
2. Were there differences in performance by tests? Why?
3. Are there adequate structures in place to offer courses identified in the report and not offered at your school? If not, how do we support the students taking those courses?
4. How do your students' course grades relate to the courses they have taken or are currently taking?
5. Which students were predicted to be successful in these courses?

For questions regarding the AP examination results, contact Paul Houchens, Director, Research & Evaluation at 561-434-8780 or Dr. Adam Miller, Assistant Superintendent, Performance Accountability at 561-434-8851. For questions about AP programs offered in the District, please contact Tamarie Baruch, Program Planner Instruction, Secondary Education at 561-434-8255. For questions about individual school efforts and exams, please contact the appropriate regional superintendent or school principal.

Note: Schools with fewer than 10 students tested or results for only one year were not included in this table.

*Reference group for gap computations.

** Groups with fewer than 10 participants are suppressed.

- 2 or more points increase of participation, passing rates, or decrease gap.
- 2 or more points decrease in participation, passing rates, or increase gap.
