Mrs. Nina Montez, Principal
Mr. David Torres, Assistant Principal

September 7, 2023

Dear Parents and Students,

It is with great excitement that we will begin an environmental club at Lighthouse Elementary for second graders. We will be learning about the Native Species of plants and animals that inhabit our ecosystem. That means we will be exploring the campus and might encounter insects that bite. The club. which will be named by a student, will begin every Thursday beginning September 21 and end on December 14, 2023, excluding Thanksgiving break. This club is popular and please look at your calendars to make sure your child will be in attendance. Please return the bottom portion to your child's teacher by Monday September 11, space is limited to 18 students.
