

CONGRESS STEAM

**Science, Technology, Engineering, Art, & Math
(STEAM) Choice Academy!**

The Arts are integrated into all experiences at Congress Middle School. Students engage in a rigorous curriculum designed to stimulate artistic creativity through technology-rich, project-based learning while simultaneously promoting academic achievement through the study of STEM disciplines. STEAM students can design and produce objects using 3D printers in an interdisciplinary STEAM Innovation Lab or design, program, and test robots using advanced robotics software. They can participate in the Piano/Keyboarding Compositions Lab, learn to play orchestral string instruments, or learn different styles of Dance in the dance studio.

IN ORDER FOR STUDENTS TO PARTICIPATE IN ANY OF CONGRESS' CHOICE PROGRAMS, PARENTS MUST COMPLETE A CHOICE APPLICATION.

APPLICATIONS ARE AVAILABLE IN OCTOBER EACH YEAR. FOR MORE INFORMATION, YOU CAN VISIT OUR WEBSITE FOR THE DISTRICT'S CHOICE PROGRAMS WEBSITE AT:

ACADEMIES

PRE-MEDICAL

Students in the Medical Sciences Academy follow an intensive 3-year High School Preparatory program that emphasizes science, mathematics, and language arts skills that will prepare them to be highly competitive in the medical field.

DIGITAL VIDEO DESIGN

The Digital Video Graphics strand provides unique exposure to the telecommunications industry. Our cohort is led by an industry professional with extensive backgrounds in capturing, editing, encoding, and delivery of high-quality film graphics.

ACADEMIES

PRE-ENGINEERING

Pre-engineering is a highly interactive curriculum introducing students to the many facets of engineering. Each grade level presents different challenges, beginning with Aerospace and Autonomics, and progressing through Computer-Assisted Drafting. Annually, students will further their preparation for the high school cohort.

DIGITAL GRAPHICS DESIGN

The Digital Graphic Design curriculum at Congress Middle School enables students to identify, analyze, and create various forms of graphic art by interacting with the latest versions of graphic design software used in the professional industry.
