

International Baccalaureate Program

MYP Framework is comprised of the 8 subject groups (Grades 6-10)

- Language acquisition (Spanish)
- Language & Literature
- Individuals & Societies
- Sciences
- Mathematics
- Arts
- Physical & health education
- Design

The IB program develops inquiring minds of our young people, guides them through the cycles of inquiry, action and reflection. They learning how their actions can be set into motion to create a positive change.

Project based learning is common in all classes as well as cross curricular lessons making real world connections. Students will engage in community service each year in the program, with a final project in 8th grade. This prepares them for the DP personal project in high school.

Students have the opportunity to attend a nearby IB High School program to build upon the skills they have acquired in middle school. Our program is a pathway for the high school Diploma program.

The IB/MYP Program aims at students:

- building confidence in managing their own learning
- learn by doing (project based), connecting the classroom to the larger world
- thrive in positive school cultures where they are engaged and motivated to excel
- develop an understanding of global challenges and a commitment to act as responsible citizens.
