Cambridge Lower Secondary Program

Our Cambridge Academy is an **international program** that prepares school students for life, helping them develop an informed curiosity and a lasting passion for learning. We are part of the University of Cambridge.

It helps students discover new abilities and a wider world, and gives them the skills they need for life, so they can achieve at school, university and work.

The Cambridge program encompasses a student's Math, Science, and English classes.

Why Choose Cambridge International?

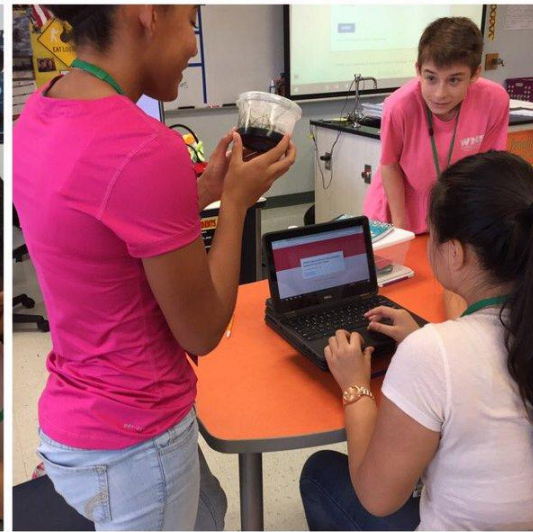

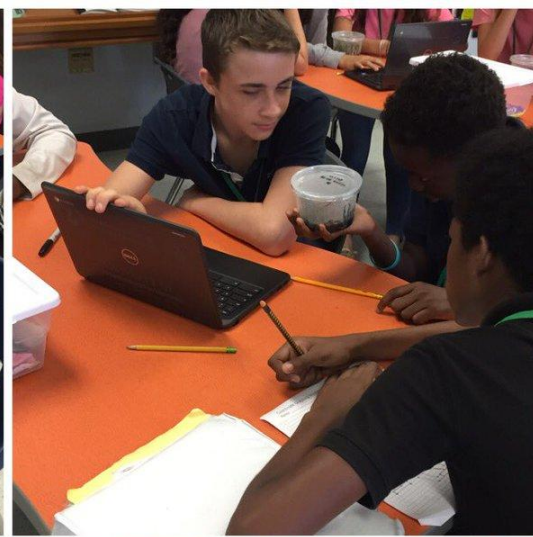

- Rigorous international standards and frameworks comparable to any middle school program
- Internationally benchmarked standards and assessments
- Instructional delivery is spiraled and crosses content
- Content is continuously connected to real world problems and solutions
- Instruction requires learners to engage in application of knowledge, higher order & critical thinking skills, and rigorous cooperative learning
- Develops a skilled learner for the challenges of an academically diverse, global environment
- Seamlessly links to high school AICE Programs
- The program is part of the University of Cambridge, one of the world's top universities and trusted for excellence in education
- The Cambridge Standards and Frameworks are modeled in over 10,000 schools in more than 160 countries

How is a Cambridge classroom different?

- Students develop higher order thinking skills so that they can apply what they've learned.
- Students get to play an active role in the classroom; thinking critically, learning how to construct an argument and evaluate evidence, working independently, and collaborating with one another to bring a project to a successful outcome (and if it's not successful, they'll also learn lessons from reflecting on why that might be).
- Students will be encouraged to develop an international outlook, and become confident, global citizens.
- Students have to demonstrate understanding and the core knowledge of a subject, as well as think critically.
- Students will learn in a 1:1 digital environment in Cambridge classrooms.

Cambridge Attributes

- Confident in working with information and ideas– their own and others
- Responsible for themselves, responsive to and respectful of others
- Reflective as learners, developing their own ability to learn
- Innovative and equipped for new and future challenges
- Engaging intellectually and socially, and ready to make a difference in the world

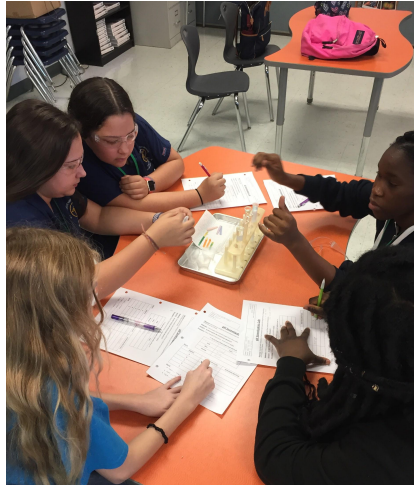

Cambridge Students have...

...a desire to develop into confident, innovative, responsible, reflective and engaged learners

....a desire to develop successful schooling habits or a willingness to work towards them:
organization, time management, prioritization, concentration & motivation

Cambridge Academy students have the opportunity to demonstrate their competency on international assessments and compete to be ranked on a global platform.

International Curriculum & Standards

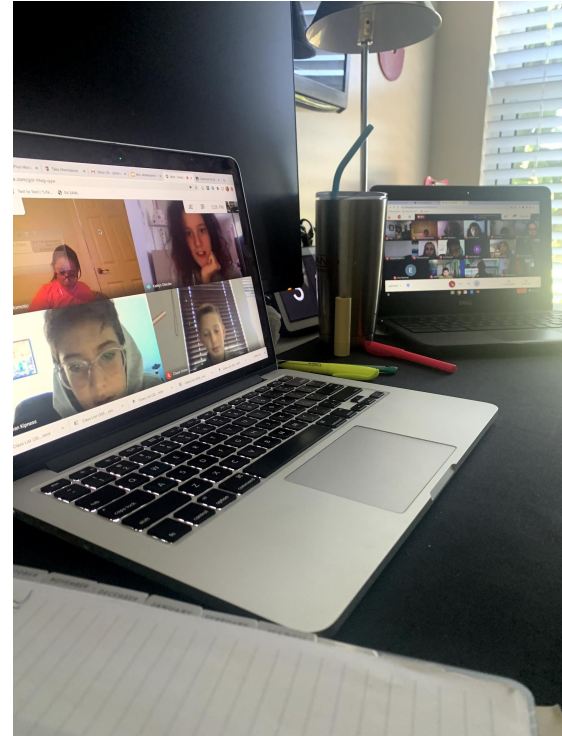

Identifies a comprehensive set of learning objectives in **English, Math, & Science** that is mapped to the Common Core State Standards & Florida Standards.

Supplemental instructional resources are integrated into the delivery of the International curriculum.

The Cambridge Academy teachers have participated in teacher development specifically for the Cambridge instructional delivery model.

Cambridge Accelerated

- Cambridge Accelerated is an advanced version of our current academy
- **Gifted Clusters** for English & Science
- **One-to-one** digital classes
- **Accelerated Math and Science** sequence leading to HS credit opportunities
