SUBJECT: RESULTS OF FY21 FLORIDA STANDARDS ASSESSMENTS (FSA) AND END-OF-COURSE (EOC) ASSESSMENTS

The Florida Department of Education (FDOE) has released the FY21 results of the Florida Standards Assessments (FSA) for English Language Arts (ELA) and Mathematics, Statewide Science Assessments, FSA End-Of-Course (EOC) assessments for Algebra 1, Geometry, and Next Generation Sunshine State Standards (NGSSS) EOC assessments for Biology, U.S. History and Civics.¹ Both FSA and EOC assessments are considered high school graduation requirements; students must score a Level 3 or above on both Grade 10 FSA ELA and the Algebra 1 EOC to earn a Standard Diploma. However, students have several opportunities to meet these requirements through retake or concordant test administrations.

Statewide, scores in all subject areas declined in FY21 relative to FY19, the last time the statewide exams were administered prior to the COVID-19 pandemic. A preliminary review of the test results revealed that performance decreases for District students were larger in Mathematics than in English Language Arts (ELA), mirroring statewide data. Other findings concerning District students' performance relative to students statewide and in the other large districts include:

- In FY21, the District met or exceeded State performance on each of the following assessments:
 - English Language Arts (ELA) Grades 3, 4, 5, 6, 7, 8, 9, and 10
 - Mathematics Grades 5 and 8 as well as Algebra 1 and Geometry
 - Science Grade 8 and Biology
- In FY21, when compared with the seven largest districts in Florida², the District had the highest performance or tied for the highest performance for the following assessments:
 - ELA Grades 5, 9, and 10
 - Mathematics Grades 6 and 8
 - Science Grade 8 and Biology

¹ This summary is based on all students tested, not on the group of students used in the calculation of school grades. The FDOE previously released the results for Grade 3 FSA ELA, and those results are included in this analysis.

² Largest Florida public school districts with student enrollment exceeding 100,000 students.

* In FY21, District continued to have Grade 7 students who enrolled in Advanced Mathematics and who participated in the Grade 8 FSA Mathematics assessment, which matched the standards that were instructed. As such the tested population on the Grade 7 and 8 FSA Mathematics in District differs from other districts.
