### **SUBJECT: RELEASE OF FY18 PRELIMINARY SCHOOL AND DISTRICT GRADES**

On June 27, the Florida Department of Education (FDOE) released the FY18 preliminary School and District Grades. For the first time since FY15, the School District of Palm Beach County (SDPBC) is an "A" Rated School District earning 63% of the possible points.

#### **District Grades**

- For FY18, SDPBC has an "A" rating and when compared to the other large districts in Florida, the District demonstrated higher performance overall and in four of the 11 components including
  - Math Achievement,
  - Science Achievement,
  - Math learning gains for all students, and
  - High school graduation rate (tied with Orange county).
- For FY18, the District also had the highest percentage of points earned among the large districts.
- When compared with all 67 Florida school districts, SDPBC was ranked 13<sup>th</sup> and one of 20 districts to receive an "A" grade.

Student performance on the Florida Standards Assessments (FSA) provides the foundation for these grades, which are based on a school grading system adopted by the State Board of Education (SBOE). The FY18 school grading system is based on the percentage of total points earned on several components including achievement, learning gains for all students and for lowest 25% students, high school graduation rates, and acceleration success in middle and high schools. The current school grades model has been applied since FY16, as such this summary only included FY16-FY18 for comparison. Schools and districts are rated "A" through "F" based on a percentage of points earned.<sup>1</sup> Schools that did not test at least 95% of students received an "I" and have been excluded from this analysis.

A review of the FY18 preliminary School and District grades reveals the following:

---

<sup>1</sup> Grading Scale: A = 62% of points or greater, B = 54% to 61% of points, C = 41% to 53% of points, D = 32% to 40% of points, F = 31% of points or less.

## School Grades

- For FY18, the results for SDPBC Traditional<sup>2</sup> schools showed that,
  - 65% of elementary schools were rated “A” or “B”; an increase of nearly 5 percentage points from the prior year;
  - 67% of middle schools were rated “A” or “B”, an increase of 9 percentage points from the prior year;
  - 68% of high schools were rated “A” or “B”, an increase of 5 percentage points from the prior year; and
  - The District had the highest percentage of “A” rated middle and high schools compared to the large urban districts<sup>3</sup> and the State.

Tables 1a-1e contain the numbers and percentages of School Grades for Florida and District elementary, middle, high, charter, alternative, and ESE schools. Tables 2a–2d contain the percentages of letter grades for elementary, middle, high, and charter schools in the seven largest districts in Florida. Table 3 contains district grades for the seven largest districts in Florida. Table 4 contains school grade components for each school.
