## OVERVIEW

### AUTHORITY

The District's Records Retention Schedule is a compilation of the State of Florida's General Records Schedules (GS1-SL and GS7) and District specific record series. This schedule along with the Records Disposal Certification (PBSD 0783) should be consulted when records are being inventoried or relocated, or disposal is being considered.

The retention periods included in this schedule are based on the legal (federal and state laws and regulations), general administrative practices, financial (fiscal management principles) and historical value of the records. These are *minimum* retention periods and cannot be reduced. However, in cases of litigation holds, records shall be kept until all holds have been released.

### RECORDS HOLD

When litigation is pending or anticipated against the District, the Office of Chief Counsel will issue a notice instructing District personnel to preserve all records related to the litigation. After the notice is issued, none of the records are eligible for destruction regardless of the dates indicated in the records retention schedule until notified by legal staff that the hold is no longer in effect. These holds affect **ONLY** the school or department of record.

Employees shall not alter or destroy records that fall within the scope of the records hold until the hold is released. Employees in violation of the records hold may be subjected to disciplinary action.

### ELECTRONIC COMMUNICATION RECORDS

The records retention schedule covers all public records regardless of format. Electronic records include electronic mail, instant messaging, text messaging, multimedia messaging, chat messaging, social networking messages, sent by current or future electronic messaging technology or device and should be retained under the appropriate record series to which they belong and in accordance with the retention period for that record series.

### TRANSITORY MESSAGES

Transitory messages are meant to keep employees informed and are of a short-term value. However, the contents of a transitory message will determine if it needs to be retained for a longer period of time under an appropriate record series.

### RECORDS DISPOSITION

All records (regardless of format) that have reached the end of their lifecycle may be destroyed in accordance with the District's Records Retention Schedule and documented on the Records Disposal Certification form (PBSD 0783). Records containing confidential or exempt information should be shredded. Chapter 1B-24, F.A.C. prohibits the burial (landfill) of confidential or exempt records since this method does not ensure complete destruction or unauthorized access to records.

Non-paper records may be disposed of by shredding, high level overwriting or chemical decomposition.

Due to environmental and safety reasons, the District prohibits the burning of records, unless being done by an industrial incineration organization.

**BACKUPS: ELECTRONIC/DIGITAL RECORDS**

There is no retention schedule for backup tapes, disks, drives, or other forms of electronic/digital data backup. A backup should be just that, a data/records backup kept solely as a security precaution but **not intended to serve as the record copy or as a records retention tool**. In the case of disaster, the backup would be used to restore lost records; otherwise, agency records that have not met their retention should **not** be disposed of on the basis of the existence of a backup. If for any reason (for instance, a disaster erases emails on your server) the only existing copy of an item that has not met its retention period is on a backup tape or drive, the custodial agency of that record must ensure that the record on the backup is maintained for the appropriate retention period. A backup containing record copies/only existing copies of items that have not passed their retention would have to be retained for the length of the longest unmet retention period. Preferably, the records should be restored to the agency from the backup to ensure that the backup is not used as a records retention tool.
